

# Alfred L. Wolff

## Quality Management System

In 1994, Alfred L. Wolff GmbH was the first German company in its sector of activities to obtain the ISO 9002 certification. In July 2003, the certification was renewed according to the ISO 9001:2000 norm. The current ISO certificate has been approved on July 1st, 2006 and is valid until June 30th, 2009. Quality Management, Quality Safety, Development and Marketing cooperate closely with our trade departments and international production units to secure the high Alfred L. Wolff's Quality Standard from sourcing of the raw materials to sales, after-sales and customer's service. We aim at a systematic building up of an overall ALW Management System corresponding to the growing requirements for Quality Assurance and Safety, environmental care and consumers' protection.

### ISO

DIN EN ISO 9001:2000 means Quality Assurance for Alfred L. Wolff's customers through internal and external audits, product and production controls as well as sensory, chemical and bacteriological analysis in our in-house laboratory.

### HACCP (Hazard Analysis Critical Control Point)

Since August 1998 we have implemented a self-run hygiene control-system according to the HACCP directives and the European Decrees EU 852/2004, 853/2004 and 854/2004.

### ORGANIC PRODUCTS

The trade, processing and storage of our organic products correspond to the European Decree N° 2092/91 on Ecological Agriculture and to the USDA/NOP-Final Rule on organically produced goods. Certification by BCS Öko-Garantie GmbH, Germany, EU-Code Number 001-Öko-Kontrollstelle.

### KOSHER / HALAL

Most Alfred L. Wolff's products are Kosher and Halal certified.

### ENVIRONMENTAL CARE

Alfred L. Wolff is a modern supplier of food ingredients and complies with ecological requirements, cares for natural resources and protects the environment as much as possible. We operate our own ground water well, a clarifying plant besides composting and we optimize our power consumption. We use recyclable packing material and returnable packing units.

### INDUSTRIAL SAFETY

The Alfred L. Wolff's staff in the production units and warehouses is duly trained in the field of professional safety control and undergoes preventive medical checks. Our company acts according to the German industrial safety regulations and regularly consults a safety engineer.
